EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Allan Fanucci on April 10, 2006.

The application has been amended as follows:

In the claims:

Claim 1, line 3, after "and", --forming-- was inserted.

Claim 1, line 5, "assembly" was deleted and --first support-- was inserted therein.

Claim 1, line 7, "assembly" was deleted and --first support-- was inserted therein.

Claim 7, line 1, "assembly" was deleted and --first support-- was inserted therein.

Claim 12, lines 1-2, "processing of the assembly comprises forming" was deleted and --the recess is-- was inserted therein.

Claim 14, line 1, "wherein processing of the assembly" was deleted and --which further-- was inserted therein.

Claim 14, lines 2-3, "between a free surface of the useful layer and the interface to separate the useful layer from the residual material and" was deleted and --in the useful layer-- was inserted therein.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The newly cited references to Ito et al., Takeshita et al., and Katoh et al. show applying a layer over a support and recesses in the support but there is no suggestion in any of the prior art to attenuate bonding between the layer in the recesses. Furthermore the layer on the support is not a layer to be transferred and the layer in the recesses is not residual material.

The drawings filed on March 11, 2004 are accepted by the examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Osele whose telephone number is 571-272-1235. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Fiorilla can be reached on 571-272-1187. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
